### AMENDMENTS MADE IN LAND GRANTS TO INDUSTRIES

Board of Trade Wants Good Security of  
Guarantees Before Giving any trust.

At the meeting of the Board of Trade Tuesday night a few amendments were made in the grants to new industries made in the name of the town of Bassano. The first amendment concerned a small oil well which considered application from Bassano Sand and Gravel Company, Mr. and Mrs. Miller, who had a small oil well on the hill which they wanted to sell to the town. The town of Bassano should not be given a new land in consideration of the fact that they were automatically "expiring" after six months of continuous use. The town of Bassano had better arrange that would agree to accept Title to Block 9 and a simple lease on the land for a period of six months. Block 8 and south half of 18 for oil purposes, promising to agree to the same conditions as the oil well title, to other than manufacturing concerns, when day was exhausted and for six more months. Land as they were then using that would be to be decided to them.

Committee consisting of E. A. Dyer, L. W. Sheer, Mr. C. Peeler, and Mr. W. Peeler, were appointed to further discuss this Bill.

The agreement for the sale of the land which wanted title to Block 9 was altered to read that Block 4 be reserved for the oil well and the rest of the land be given to the town. The town of Bassano commenced within twelve months, and for six more months land as they were then using that would be to be decided to them.

The whole world seems to be ploughing this week and already H. N. McNaugher and J. H. P. DeWitt have been to the oil fields. Mr. McNaugher and Mr. DeWitt and Mr. McNaugher got in to hundred acres of wheat, spuds and oil wells within a few days ago. They have been back to the oil fields in a few days ago.

They described it as good and have every confidence that the season will be one of the best Bassano district has ever seen.

H. W. Pattie too has commenced his oil welling and has been away from Bassano from last year. Delayed him slightly but he will be soon within a week he expects given favorable conditions.

## A Careful Diet.

Sir Highland Webb, the eminent physician, was a man of irritable temperament and when sore by the queer complaints of his patients he would often send out a special message to a civil answer. A troublesome patient, whose illness was purely imaginary pestered him one day with questions as to what he should do.

"My directions on that point," said Sir Richard, "will be few and simple. Do not eat any bacon, sausages, or pork, for they are hard of digestion; nor the bairns, for they are also hard; but anything else you please."

NEW STRENGTH  
IN THE SPRING

Nature Needs Aid in Making New  
Health-giving Blood.

In the spring the system needs a tonic. To be healthy you must have new blood just as the trees have new leaves to renew their vitality. Nature demands it, and without this new blood you will have no strength. If there are any twinges of rheumatism or the sharp stabbing pains of neuralgia, often accompanied by violent eruptions on the skin, if other cases there is merely a feeling of tiredness and weariness, then there are signs that the blood is out of order — that the indolent is working against your vitality. What you need in spring is a tonic medicine to put you right, and in all cases of debility, there is no tonic can equal Dr. William's Pink Pills. These pills actually make new blood in the body, and in a few days in spring this new blood drives out the seeds of disease and makes children bright, active and strong. Mr. Murray Marshall, Zeppelins, Dr. William's Canadian Highway Association in the good work they are doing for Canada.

These pills are sold by all medical dealers or can be had by mail order for 25¢ from the Dr. William's Medicines Co., Brockville, Ont.

"I do, ma. I take it along down hill, and when I get home again."

Manitoba's Grain Crop. When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with oil. They are made to keep their freshness and strength. They do not grow stale, and a bottle of it can be fully esteemed.

## Bad Outlook.

"No, I can't get up enough courage to ask old Patterson for his daughter."

"And why not?"

"I have a few bottles of absolute fireproof buildings and a fire insurance agent." —Cleveland Plain Dealer.

A PILL for All Seasons. —Winter and summer, in latitude, whether in Germany or Arctic lands, Parmelee's Vegetable Pills can be depended upon to do their work. They are made for the friend and ways and should carry them with him everywhere. They are made to keep their freshness and strength. They do not grow stale, and a bottle of it can be fully esteemed.

## Chinese Porcelain.

An English authority on curios, J. F. Blacker, sees no limit to the demand for Chinese porcelain. This "hawthorn" porcelain is, it is however, the wild, plain, and white. Many blue and white ginger jars show this flower on the blue ground. The blue and white are the colors of other colors, red, black, green and yellow, which in their great production, in China, are not to be equalled. Every black four, black vase sold for £25,000, which is about \$12,000, and a colour figure for £10,000, or £10,000 must however be remembered, says Mr. Blacker, that in China there were no potters, but the potters were the potters of the ruling and wealthy classes. In the lower half of the nineteenth century, English potters, in order to array a "P. & Co. et al. etiam etiam" than beautiful. Two cups and saucers will bring £100,000, or £100,000 the day, will it is predicted, soon be held at £7,000.

## Children and Good Roads.

It is pleasing to learn from the office of the Canadian Highway Association that the Canadian people are taking a keen interest in this easy competition on "What Good Roads Mean to You." The entries from all parts of the Dominion papers are being forwarded to the Canadian Highway Association at 300 Bloor Street, Westminster, B.C.

As an encouragement to the children to take an interest in the preparation of their entries, the president of the Canadian Highway Association, in the course of his remarks, indicated that it is often necessary in order to awaken the younger generation to the economic needs of this country.

Good Roads, as everyone is aware, are the backbone of Canada. At the present time, but it is only when the people at large are ready to do their duty, that we can expect the authorities, whether local, municipal, provincial or national, to take an interest in anything like a large scale. The aims and purposes of the Canadian Highway Association are to establish a transcontinental road that will reach from Halifax, N.B., to Victoria, B.C., and beyond. It is not the intention of this organization to do more than educate the public in the value of good roads, and in this case, it has done much good work in this cause and will be largely instrumental in getting this highway, four thousand miles long, completed within five years.

We in this district must do our share in this cause. Mr. Murray Marshall, Zeppelins, Dr. William's Canadian Highway Association in the good work they are doing for Canada.

That Impudent Question.

Just as Rivers was about to sit

down to dinner there came a ring at

his telephone.

"Well," he said, placing the receiver.

"Who is this?" demanded a high-

pitched, impudent voice.

"This is Rivers," answered Rivers.

"Do you know who I am?"

"No," Rivers said, "but I know

who you are."

"I am the King of England."

"I am the King of England," Rivers

repeated.

**CANADIAN PACIFIC IRRIGATION COLONIZATION COMPANY, Ltd.**

CALGARY

ALBERTA

It will be remembered that the C.P.R. will offer to colonize land and furnish cash prizes for the best land in the stand of alfalfa sown during spring 1912. The prizes are as follows:

First prize	\$250
Second	150
Third	100
Fourth	80
Fifth	60

This competition was announced last year, and something like 150 farmers took part in the great exhibition of plantings to acres and the results were good. It was also announced by the C.P.R. that the company would send the very best seed obtainable, would receive and distribute same free of charge, and would pay the shipping charges for any seed and shall have it shipped as promptly as possible.

It will be remembered that the C.P.R. has a large farm at Lethbridge, and that the company has been instrumental in getting work commenced. If there are any farmers who would like to receive the services of the C.P.R. in getting out a stand of alfalfa, land and seed may be obtained from the C.P.R. at a nominal charge, and in all cases, cash prizes will be given for the best stand.

We will be pleased to supply the C.P.R. with seed and shall have it shipped as promptly as possible.
